

ICTWhat are we doing?

We are learning how to create a simple PowerPoint presentation about a topic. We are learning how to change the size and colour of our writing, copy and paste images from Google, make the images bigger and smaller, change the background colour and give images frames or borders.

Activities to do at home:

- Use the computer everyday
- Practise logging on by yourself, do you know the username and password?
- Choose a topic – examples – dogs, cats, food, TV shows, colours, flowers etc. Use Google to find photos of these things – can you spell them? Do you need help?
- Copy and paste the images that you have found into Powerpoint
- Make the images bigger or smaller to fit the page
- Give the images borders / frames
- Add words – what are the photos of? Can you label them?
- Choose a background for your work
- Can you remember how to save your work?
- Share your presentations with your family
- Email your presentations to Jo Roscoe on jroscoe@mhs.bfet.uk
- How many PowerPoint presentations can you make at home?

Please remember to save any work that you do at home and bring it in to school when you return to share with the rest of the group or email to me on jroscoe@mhs.bfet.uk.

We have attached some computer how to guides.
